Insider Trade Marker Information

The Insider Trade Marker Information products provide a security level, daily summary of insider buying and selling activities for the Toronto Stock Exchange and TSX Venture Exchange. This information is based on a trade related marker provided to TSX by brokers at the time a company insider either buys or sells a security.

Also included is a daily summary of corrections to insider buying and selling activities reported by brokers to regulatory organizations. Due to risk of error from the manual update process and possible overstatements due to bundling of orders, it is important to consider the corrections in conjunction with the daily summary of insider buying and selling activities. (See the specifications for further details.)

Benefits

- Most timely indicator of Canadian insider trading activity – data provided same day
- Comprehensive coverage of Toronto Stock Exchange and TSX Venture Exchange
- Format is easy to integrate into proprietary systems

Frequency

- Daily (each trading day after market close)

Delivery Options

- FTP or email: *Insider Trade Marker Report*

Subscribers to the Insider Trade Marker Report data will receive four files:

PRICING NOTES:

1. Non-professional Pricing

Publications pricing includes a non-professional classification.

A “non-professional” is defined as a natural person who is not a securities professional and who is acting in his/her personal capacity and not as a principal, officer, partner, employee nor agent of any business nor on behalf of any individual. This definition excludes brokers, dealers, investment advisors, or persons otherwise employed by organizations conducting professional activities involving the buying and selling of instruments, such as stocks, bonds, options, futures contracts and other trading vehicles. Also excluded are persons engaged as consultants, independent contractors, software developers and others that use market information for any purpose for profit other than the trading of that person’s personal account.

A non-professional cannot be registered or qualified with:

- A provincial Securities Commission
- Securities Exchange Commission
- Commodities Futures Trading Commission
- Any provincial, state or other government securities agency;
- Any securities exchange or association;
- Any commodities or futures contract market or association or other entity that performs functions that are equivalent to those of such persons.

2. Unless otherwise indicated, prices are for a single end user, and do not include redistribution rights. For distributor pricing, please contact marketdata@tsxdatalinx.com.
3. Prices do not include applicable taxes, and are subject to change.
4. Ad hoc data purchase orders placed through our Sales & Subscription Support team are payable in Canadian funds, with a minimum ad hoc purchase charge of \$CDN 135.00.
