

"I need quality debt market data to help me make decisions – on my desktop where I can get it when I need it. I don't like to phone around for inside prices. It's distracting and tips my hand." – Portfolio Manager

Save time. Achieve better returns. CanDeal Debt Market Data: comprehensive, accurate, real-time debt pricing. Available now.

CanDeal Debt Market Data Bringing transparency to Canada's debt market

For the first time ever, investors and traders have access to an unprecedented level of transparency in Canada's debt marketplace – through CanDeal Debt Market Data service. This new data service gives you the best bid and ask prices available in the market, on your desktop, directly from Canada's six largest domestic fixed income dealers.

The power of knowledge

With CanDeal Debt Market Data, make portfolio investment decisions on a comprehensive range of highly liquid instruments – knowing the prices you are using in your analysis are real, available and delivered in real-time for all securities throughout the day.

Boost your performance

CanDeal Debt Market Data replaces the need to call around to establish prices for fixed income securities. You have instant access to the best pricing for every instrument, all day long and these prices feed directly into your analytic tools for optimum results. CanDeal data gives you the scope to generate new trading ideas, locate value, execute faster at a better price, and improve your portfolio returns.

The exceptional quality of CanDeal Debt Market Data feed

Accurate and timely

- see the highest bid and lowest offer available at any given moment from the deepest pool of liquidity for Canadian fixed income products
- gain continuous access to two-sided, real-time bond market pricing, all day long
- view pricing taken directly from the trading desks of Canada's six largest domestic fixed income dealers as they mark their books to market
- receive 200,000 updates each day, more than 4,000 an hour, 102 a minute.

Breadth of coverage: over 250 bonds, including every Government of Canada bond and treasury bill, a range of provincial and agency bonds, as well as a selection of corporate bonds.

Complete content: best bid/ask price, best bid/ask yield, best bid/ask quantity, number of dealers at the best bid/ask price, best bid/ask tick, best bid/ask time, ticker, coupon, maturity date, security type, instrument code, benchmark and asset class indicators.
